

## Report for WCP Executive Durban 2014

Malaysia through the Malaysian Association of Psychotherapy (MAP) has continued to send its representatives to WCP2014 Durban as has been the case since WCP Beijing 2008.

MAP has continued to lead in the development of Psychotherapy in Malaysia and Asia. This year MAP has launched several professional boards including Psychotherapy, Couple Therapy, Family Therapy, Group Therapy and Child Therapy. This has enabled the practice and training of psychotherapy to be more professional and accepted more widely.

MAP has also launched a new supervisor membership, enabling more supervisors to be trained and more clinical supervisions to be conducted.

MAP is also preparing for the regional congress in 2015 and look forward to further growth of psychotherapy through this congress.

The Ministry of Health has set up a new Complementary Medicine department and MAP has collaborated with the Ministry of Health to get Psychotherapy more accessible to the general public.

Kind regards

Dr. WengLok Chan FMAPsy., FMCBTA., FECARE., PMMSCM  
D.Phil.(Psy), M.Sc.(Learning), B.Sc.(Psy)(Hons),  
Grad Dip(Child Expressive Therapy), Cert(CBT),  
Cert(Couple & Family Therapy), CPPD(PsychoNutritional Medicine),  
CSAC(Certified Substance Abuse Counselor)
