Dear colleagues;

Warm regards from the world council for psychotherapy African chapter.

In the name of the World Council for Psychotherapy I want to invite you to this outstanding event in 2017 at Pwani University.

Before the 9th Conference, WCP (AC) has held several conferences elsewhere in African Countries including Uganda, South Africa and recently in Kenya.

The objectives of the WCP (AC) are to hold conferences in Africa and spearhead the training and application of Psychotherapy in all its forms in Africa. WCP is recognized by United Nations and is a voice on mental health and wellbeing.

The WCP is pleased to announce the 10th WCP African Chapter international Conference series in Kenya and specifically at PWANI University, MOMBASA. This decision was reached at the last conference held at Kisii Main Campus because of the exhibited enthusiasm shown by participants.

Apart from sensitizing psychotherapy in East Africa, the conference proceedings will be published into a book. We are looking forward to launching the book based on the last conferences held at JOOUST and Kisii University with a title "*Psychotherapy, A multidisciplinary fabric anchoring careers*"

Yours sincerely,
